Cell and tissue transplantation is one of the most exciting and rapidly expanding areas in medicine. This first edition of the Yearbook of Cell and Tissue Transplantation summarizes the latest advances in this revolutionary field, including developments in tissue engineering and transplantation of hybrid organs and tissues, while reviewing those data which, while not new, add to the usefulness of this work as a comprehensive reference. The justification for yearbooks is greater than ever as we approach the third millennium, overwhelmed with information. In view of the important and rapid changes occurring in this area, a new edition of this yearbook will appear periodically. The editors' careers at Harvard Medical School guarantee the quality of this book. The authors, too, are uniformly drawn from the highest rank of an unusually dedicated and heterogeneous professional group. from the Foreword by Thomas E. Starzl, Honorary President, The Cell Transplant Society: 'No major topic in the global field is left uncovered ... the result will be a feast for those already well informed, and a life raft for those who are not.'

The interest in pelvic floor reconstruction has grown rapidly in recent years. The collaboration between urologists, gynaecologists and colorectal surgeons has also increased. The book covers the surgical anatomy, urinary and faecal incontinence and their treatment, prolapse surgery, fistulae and post-operative management. Female Pelvic Reconstructive Surgery is a multi-disciplinary book edited by Stuart L Stanton, Urogynaecologist, and Phillippe Zimmern, Urologist, with contributions by internationally known and experienced clinicians. The book is well illustrated, up to date and authoritative.
