MATH AND SCIENCE FOR YOUNG CHILDREN, Eighth Edition, introduces readers to engaging math and science experiences for early childhood and early elementary education programs, and provides an organized, sequential approach to creating a developmentally appropriate math and science curriculum. The content aligns with key guidelines and standards: The National Association for the Education of Young Children's (NAEYC) Professional Preparation Standards (2010); Developmentally Appropriate Practice (DAP) guidelines; Common Core Mathematics Standards; and Next Generation Science Standards (NGSS). The book also addresses STEM/STEAM and the essential domains of child growth and development during the crucial birth-through-eight age range. A valuable resource for the student/future teacher, working professional, or involved parent, MATH AND SCIENCE FOR YOUNG CHILDREN emphasizes the interrelatedness of math and science and how they can be integrated into all other curriculum areas. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Contains directories of federal agencies that promote mathematics and science education at elementary and secondary levels; organized in sections by agency name, national program name, and state highlights by region.

What if going to school captured the thrills and excitement of a theme park? Just imagine what your classroom would be like if the activities inside elicited the same sense of fun and exhilaration as a roller coaster! How much more engaged would your students be if your curriculum were filled with the same mystery and mastery they found in an escape room full of puzzles and surprising twists? School should be fun! In EDrenaline Rush, John Meehan pulls back the curtain on what it takes to create thrilling learning experiences in your classroom. Packed with lesson planning tips, instructional design ideas, and plug-and-play teaching resources, EDrenaline Rush will challenge you to think differently and equip you to push your pedagogy to incredible limits. Create classrooms where students willingly step outside of their comfort zones and boldly dare to attempt the impossible. "Packed with practical tips and great writing that will have you coming back for more of his dynamic, rigorous approach to classroom teaching." --Alexis Wiggins, teacher and author of The Best Class You Never Taught "This is a must-buy and should be a must-implement for anyone who wants to create positive change in their schools." --Michael Matera, teacher and author of eXplore Like a Pirate "Every classroom can be filled with 'student-centered adrenaline, ' and after reading EDrenaline Rush you will be motivated to make it happen." --Scott Rocco, EdD, Hamilton Township (NJ) School District Superintendent and co-author of 140 Twitter Tips for Educators and Hacking Google for Education "EDrenaline Rush is the ultimate surprise and delight!" --Monica Cornetti, CEO of Sententia Gamification, GamiCon Gamemaster

Includes history of bills and resolutions.
