Become a cyber-hero - know the common wireless weaknesses "Reading a book like this one is a worthy endeavor toward becoming an experienced wireless security professional." --Devin Akin - CTO, The Certified Wireless Network Professional(CWNP) Program Wireless networks are so convenient - not only for you, but also for those nefarious types who'd like to invade them. The only way to know if your system can be penetrated is to simulate an attack. This book shows you how, along with how to strengthen any weakspots you find in your network's armor. Discover how to: Perform ethical hacks without compromising a system Combat denial of service and WEP attacks Understand how invaders think Recognize the effects of different hacks Protect against war drivers and rogue devices

A new edition of the bestselling guide-now updated to cover the latest hacks and how to prevent them! It's bad enough when a hack occurs-stealing identities, bank accounts, and personal information. But when the hack could have been prevented by taking basic security measures-like the ones described in this book-somehow that makes a bad situation even worse. This beginner guide to hacking examines some of the best security measures that exist and has been updated to cover the latest hacks for Windows 7 and the newest version of Linux. Offering increased coverage of Web application hacks, database hacks, VoIP hacks, and mobile computing hacks, this guide addresses a wide range of vulnerabilities and how to identify and prevent them. Plus, you'll examine why ethical hacking is oftentimes the only way to find security flaws, which can then prevent any future malicious attacks. Explores the malicious hackers's mindset so that you can counteract or avoid attacks completely Covers developing strategies for reporting vulnerabilities, managing security changes, and putting anti-hacking policies and procedures in place Completely updated to examine the latest hacks to Windows 7 and the newest version of Linux Explains ethical hacking and why it is essential Hacking For Dummies, 3rd Edition shows you how to put all the necessary security measures in place so that you avoid becoming a victim of malicious hacking.

This compelling novel follows four women as they learn to balance children, estranged husbands, boyfriends, and problems at work through their faith in God. Michelle, Tonya, Mrs. Judson, and Miz Ida. African-American, white, rich, poor -- they seemingly have nothing in common. Yet every day they face the complex realities of twenty-first-century urban life as they try to balance their needs with their belief in God. Through the course of a year, these women must come to terms with the past, discover their true identities, and recognize the unexpected miracles that reveal God's all-encompassing love. These four women entertain us and invite us to join in their lives. As they welcome us, they also introduce us to the men in their lives. The men play supporting roles, adding color and zest to the lives of the Cover Girls. Bishop Jakes knows the struggles real women encounter and the losses that make it difficult to face the future. He brings compassionate insight and deep wisdom to this novel and proves that he is not only a gifted preacher, but a born storyteller.

A hands-on holistic guide to self-care based on the ancient wisdom of Ayurveda—learn how to build a daily personal practice using food, breath, movement, and meditation to stay balanced and nourished through the seasons. Nourishment comes in many forms—it's the food you eat, how you breathe and move your body, and the way you establish your daily routine. Living Ayurveda weaves together the ancient wisdom of Ayurveda and Yoga in a modern, accessible way to provide a season-by-season guide for living a vibrantly rich year. Part cookbook, part lifestyle manual, each chapter includes simple vegetarian recipes, seasonal rituals, and self-care practices to cultivate your inner wisdom and feed your body, mind, and spirit. In this book, you'll find:

- 80+ delicious vegetarian recipes to balance the body and strengthen digestion through the seasons
- Illustrated menu guides and cooking tips that demystify the process of building a balanced meal
- Yoga sequences and breathing techniques to help align with the energy of each season
- Seasonal rituals based on moon cycles to strengthen your intuition and develop a personal routine at home

Learn from ancient wisdom to know yourself intimately, be open to new discoveries, and see where this path takes you to allow a deeper wisdom to blossom in your life.
