BMW M42 is a 4-cylinder straight engine which was developed on base of M40B18. The main difference between two motors is the fact that new version has more efficient aluminum 16-valve cylinder head. It uses two camshafts as well as optimized combustion chambers. M42 is still equipped with hydraulic lifters. Diameter of inlet valves is 33 mm, while outlet valves are 30.5 mm in diameter ...

The E30 3 Series was the car that defined BMW more than any other during the 1980s, and it has gone on to become a much-loved modern classic. This book tells the full story of the cars from the time in 1976 when work first began on the successor to the original E21 3 Series. This new book features the story of how and why BMW designed their new compact E30 saloon for the 1980s; the styling, engineering and specification changes introduced over the lifetime of the model. There are full technical specifications,
