One of the advantages of the 737 NG over the
737 Classic is that Boeing allow for
intermediate base C checks before the D check
to reduce the time, work and expense required
at the D check. Operators that have a
maintenance programme with a P48 check can
have a base check interval of eight phases
(hence the name P8), where one phase = 500FH,
and so have six base checks in the base
maintenance ...
