You should also check the oil color during this maintenance routine. Oil darkens after continued use because of impurities in the engine system including dirt. If the oil completely darkens before the oil change date, you may consider changing it early at 30 hours for a small one and 70 hours for a bigger machine. If you notice the oil darkening faster than expected, you can reach out to a Briggs & Stratton machine dealer near you for consultation.

**What Type Of Oil For Briggs & Stratton Lawnmower | Best -**

Either use a Briggs & Stratton oil removal kit to remove the oil or do it manually. Tilt the mower deck and position some newspaper and an oil pan or jug beneath the mower. Use a socket wrench to run the plug counterclockwise , allowing the old oil to drain.

**How to check and change lawn mower oil? | Briggs & Stratton**

Proper care and maintenance of your four cycle Briggs & Stratton lawn mower engine has repeatedly proven to be the key to long engine life. It is important that you drain the oil from your engine after the first five hours of use. Doing so will ensure that any debris created by the engines break-in process is removed from the engine oil.
