~~Captives: Britain, Empire and the World 1600-1850 by~~

~~---~~

In Captives: Britain, Empire, and the World, 1600-1850, Linda Colley exposes a perspective of the Imperial Britain that goes against traditional history. Although Britain experienced expansion at an unprecedented rate during the late 1600s until the

By exploring these forgotten  
captives – and their captors  
– Colley reveals how  
Britain's emerging empire  
was often tentative and  
subject to profound  
insecurities and  
limitations. She evokes how  
British empire was  
experienced by the mass of  
poor whites who created it.

The later strength of the  
British Empire has often  
veiled its early weaknesses,  
both actual and perceived.  
In Captives, Linda Colley  
tackles one aspect of this,  
Britons in captivity,  
focusing on the captivity  
narratives they produced and  
their reception. She covers  
three periods: North Africa  
in the 17th and 18th  
centuries, North America up  
to and including the  
American Revolution, and

Captives: Britain, Empire  
and the World is a  
fascinating look at the  
precarious nature of empire  
building and the hazards  
inherent in constructing and  
maintaining dominion over  
vast regions of land and  
people far from the seat of  
power. It is also the story  
of how ordinary people play  
a role in empire building  
and it shows that without  
the sacrifice of so many  
everyday lives the British  
would never have been able
