Dr. James K. Wright joined the Division of Trauma and Acute Care Surgery in 2021 as an assistant professor. He completed medical school at the University of Chicago, where he also completed his ...

2016 Reprint of 2011 Edition. Full facsimile of the original edition, not reproduced with Optical Recognition Software. The Marine Corps Martial Arts Program (MCMAP) is a combat system developed by the United States Marine Corps to combine existing and new hand-to-hand and close-quarters combat techniques with morale and team-building functions and instruction in the Warrior Ethos. The program, which began in 2001, trains Marines (and U.S. Navy personnel attached to Marine units) in unarmed combat, edged weapons, weapons of opportunity, and rifle and bayonet techniques. It also stresses mental and character development, including the responsible use of force, leadership, and teamwork. The program uses an advancement system of colored belts similar to that of most martial arts. The different levels of belts are: Tan belt, the lowest color belt and conducted during entry level training, signifies the basic understanding of the mental, physical, and character disciplines. It is the minimum requirement of all Marines with a training time of 27.5 hours, and has no prerequisites. Recruits receive these belts after completion of a practical application test on all of the basic techniques of the Tan Belt. Gray belt is the second belt attained after 25 hours of training. It signifies an intermediate understanding of the basic disciplines. The Marine must complete the "Leading Marines" course from the Marine Corps Institute, and most instructors will require a report be completed on the Marine Raiders. Green belt is the third belt, requiring 25 hours of training. This belt signifies understanding of the intermediate fundamentals of the different disciplines. This is the first belt level in which one can become an instructor, which allows him or her to teach tan, grey, and green belt techniques with the power to award the appropriate belt. The prerequisites for this belt include a recommendation from reporting senior. Brown belt is the fourth belt level requiring 33 hours of training. It introduces Marines to the advanced fundamentals of each discipline. In addition, as with green belts, they may be certified as MAIs and teach tan through brown techniques. Prerequisites for this belt include recommendation of reporting senior. Black belt 1st degree is the highest belt color and requires 40 hours of supervised training. It signifies knowledge of the advanced fundamentals of the different disciplines. A 1st degree black belt instructor may teach fundamentals from tan to black belt and award the appropriate belt. In addition, a black belt can become an instructor-trainer, which authorizes

The manual describes the general strategy for the U.S. Marines but it is beneficial for not only every Marine to read but concepts on leadership can be gathered to lead a business to a family. If you want to see what make Marines so effective this book is a good place to start.

Commander's Intent. MCMAP is an integrated, weapons-based system that incorporates the full spectrum of the force continuum on the battlefield, and contributes to the mental, character and physical development of Marines. It is the intent that MCMAP enhances the transformation from civilian to Marine by capitalizing on the zeal of entry level training, and developing the Marine ethos in a progressive manner throughout a Marine's career. Concept of operations (a) All Marines, regardless of age, grade or sex must perform MCMAP qualifications. (b) Commanders shall conduct MCMAP training in accordance with the instructions contained. (c) The prescribed minimum requirements of this Order should not be interpreted as limiting the commander. Commanders are encouraged to conduct additional MCMAP training in a progressive, safe manner to enhance unit performance and fitness levels of Marines.

Marine Corps Reference Publication (MCRP) 3-02B. Marine Corps Martial Arts Program (MCMAP), is designed for Marines to review and study techniques after receiving initial naming from a certified Marine Corps martial arts instructor or martial arts instructor trainer. It is not designed as a self-study or independent course. The true value of Marine Corps Martial Arts Program is enhancement to unit training. A frilly implemented program can help instill unit esprit de corps and help foster the mental, character, and physical development of the individual Marine in the unit. This publication guides individual Marines, u leaders, and martial arts instructors/instructor trainers in the proper tactics, techniques, and procedures for martial arts training. MCRP 3-02B is not intended to replace supervision by appropriate unit leaders and martial arts instruction by qualified instructors. Its role is to ensure standardized execution of tactics, techniques, and procedures throughout the Marine Corps. Although not directive, this publication is intended for use as a reference by all Marines in developing individual and unit martial arts programs. For policy on conducting martial arts training, refer to Marine Corps Order 1500.59, Marine Corps Martial Arts Program (MCMAP). WARNING Techniques described in this manual can cause serious injury or death. Practical application in the training of these techniques will be conducted in strict adherence with training procedures outlined in this manual as well as by conducting a thorough operational risk assessment for all training.

The increase in suicides among military personnel has raised concern. This book reviews suicide epidemiology in the military, catalogs military suicide-prevention activities, and recommends relevant best practices.

Fun and challenging activities help develop basic skills such as vocabulary, and build critical thinking and problem solving skills.

Although the technologies of war will always change, the insights of great leaders are timeless. And at no time are those lessons more important than in the heat of combat with lives on the line. The key is in preparation before a conflict. Battle Leadership helps you be prepared by teaching such essential skills as: How to handle different personalities under extreme stress. How to prepare your troops psychologically for combat. Insight into proven battlefield tactics (even if some of those tactics are only still relevant for their historical insights). How to instill confidence in those following you. While military tactics change, the wisdom of true leadership invariably holds. These lessons can even be applied to running a business, non-profit or government department, but they are crucial to every military commander or aspiring officer. Find out why when lives are on the line, generations have turned to and continue to learn from Battle Leadership.

The United States Marine Corps does not have this manual-or any manual on the combat use of the Ka-Bar knife. This, however, is not because they lack a structured knife combat method for training new recruits, or because the method is in any way secret or classified. They have a structured method, and it's not secret or classified. They just don't teach from a manual! Why? Simply because Marine Combat Instructors have their knife combat method internalized. They can teach it in their sleep, they can use the knife without even waking up-and they want Marine recruits to know this method in the same manner. Not to learn it-to internalize it. To own it! Because they won't have a manual with them when they need this knowledge to save their lives. Learn what they already know!

Like The Anarchist Cookbook if it were written by the U.S. Army!
