Decentralization in developing countries : a review of ...

Decentralization transfers authority and responsibility of major government functions from central to sub-national governments – including local governments, civil society, and the private sector. The community-driven development (CDD) and decentralization nexus can empower communities to exert influence over local governance and services.

Decentralization - World Bank

decentralization can greatly affect economic development and poverty reduction, it is no surprise that the World Bank is actively involved with decentralization policy in many developing countries. The Bank is involved in decentralization issues in a variety of ways: – Since many countries are undergoing some form of

Rethinking Decentralization in Developing Countries

The contributors to *Decentralization and Local Governance in Developing Countries* examine this institutional transformation from comparative and interdisciplinary perspectives, offering detailed case studies of decentralization in eight countries: Bolivia, Brazil, China, India, Indonesia, Pakistan, South Africa, and Uganda. Some of these countries witnessed an unprecedented "big bang" shift toward comprehensive political and economic decentralization: Bolivia in 1995 and Indonesia after the ...
