As the creepy little town of Nightshade prepares to celebrate its 200th anniversary—on Halloween, of course—many of its paranormal residents are receiving mysterious blackmail letters. Psychic teen Daisy Giordano and her sisters set out to find out who is behind the threats. But launching an investigation isn't easy for Daisy with her overprotective father watching her every move. Though she's is happy to have him back after the years he spent being held captive by an anti-paranormal group called the Scourge, Dad is having difficult time adjusting to home life—and the fact that his little girl is now a senior in high school. He even disapproves of Daisy's boyfriend, Ryan. Can their relationship take the strain?And Daisy's got even more on her plate: A talented amateur chef, she has won cooking lessons with celebrity chef Circe Silvertongue. After nosing around (with a little help from Circe's pet pig), Daisy begins to suspect the temperamental chef's secrets aren't only in her ingredients. . . .The fourth installment in this favorite series is full of surprises and scares!

The last person who called me Sweetpea ended up dead... I haven't killed anyone for three years, and I thought that when it happened again I'd feel bad. Like an alcoholic taking a sip of whiskey. But no. Nothing. I had a blissful night's sleep. Didn't wake up at all. And for once, no bad dream either. This morning I feel balanced. Almost sane, for once. Rhiannon is your average girl next door, settled with her boyfriend and little dog...but she's got a killer secret. Although her childhood was haunted by a famous crime, Rhiannon's life is normal now that her celebrity has dwindled. By day, her job as an editorial assistant is demeaning and unsatisfying. By evening, she dutifully listens to her friends' plans for marriage and babies while secretly making a list. A kill list. From the man at the grocery checkout who always mishandles her apples, to the driver who cuts her off on her way to work, to the people who have it coming, Rhiannon is ready to get her revenge. Because the girl everyone overlooks might be able to get away with murder...

Are you ready to take the next step in your author journey? Art for the sake of art is important. Writing for the love of it, or to create something beautiful on the page, is absolutely worthwhile and critical to expand the sum of human expression. But I'm not here to talk about creativity or the craft of writing in this book. My aim is to take the result of your creativity into the realm of actually paying the bills. To take you from being an author to running a business as an author. I was a business consultant for 13 years before I gave up my job in September 2011 to become a full-time author-entrepreneur. I worked for large corporates and small businesses, implementing financial systems across Europe and Asia Pacific. I've also started a number of my own businesses " " a scuba dive charter boat in New Zealand, a customized travel website, a property investment portfolio in Australia as well as my freelance consultancy. I've failed a lot and learned many lessons in my entrepreneurial life and I share them all in this book. In the last six years of being an author, through tempestuous changes in the publishing world, I've learned the business side of being a writer and I now earn a good living as an author-entrepreneur. I'm an author because it's my passion and my joy but also because it's a viable business in this age of global and digital opportunity. Using the frameworks of psychoanalysis, group relations, systemic organisational observation, consulting and research, this book explores the relationship between the health of the work force and the health of organisations. It seeks to do this through an exploration of experience that has three dimensions linked in a single matrix: The bodily, the emotional and the social. This exploration is inspired by Bion's original idea of the protomental matrix from which the group dynamics of basic assumption mentality are derived, leading to his initial ideas about group diseases and their cures.

A self-help expert describes a technique that can be applied to improve any life situation and create a new way of thinking about everyday problems to help reach higher levels of happiness, confidence, creativity and self-satisfaction. Original.

When it all comes crashing down... Everything I thought I had with Austin Murphy--safety, stability, the normalcy I crave but my celebrity lifestyle rarely allows--was ripped away in one night. I wanted to surprise him, but the joke was on me. Now I don't know if I ever really knew him at all. Someone has to pick up the pieces... Mackenzie Forbes was everything I ever wanted and the one person I didn't deserve. When a past mistake costs me the girl I love, I'll do everything I can to get her back. We both have demanding careers and family secrets darkening our pasts, but I need Mackenzie in my future. Sometimes everything you have to give just isn't enough...

"...awash under a brown tide...the relentless flow of immigrants...like waves on a beach, these human flows are remaking the face of America..." Since 1993, metaphorical language such as this has permeated mainstream media reporting on the United States' growing Latino population. In this groundbreaking book, Otto Santa Ana argues that far from being mere figures of speech, such metaphors produce and sustain negative public perceptions of the Latino community and its place in American society, precluding the view that Latinos are vested with the same rights and privileges as other citizens. Applying the insights of cognitive metaphor theory to an extensive natural language data set drawn from hundreds of articles in the Los Angeles Times and other media, Santa Ana reveals how metaphorical language portrays Latinos as invaders, outsiders, burdens, parasites, diseases, animals, and weeds. He convincingly demonstrates that three anti-Latino referenda passed in California because of such imagery, particularly the infamous anti-immigrant measure, Proposition 187. Santa Ana illustrates how Proposition 209 organizers broadcast compelling new metaphors about racism to persuade an electorate that had previously supported affirmative action to ban it. He also shows how Proposition 227 supporters used antiquated metaphors for learning, school, and language to blame Latino children's speech—rather than gross structural inequity—for their schools' failure to educate them. Santa Ana concludes by calling for the creation of insurgent metaphors to contest oppressive U.S. public discourse about minority communities.
