...

Club Car makes some changes. The next radical change in  
the 1990s was under the hood. In 1992, the company  
switched to a 9 horse power 286cc Kawasaki engine,  
dropping the older 341 cc side valve engine. And in 1995 it  
came out with its first 48-volt electric engine option, an  
upgrade from the previous 36-volt option.
