Jake is a geek-part jock, part geek—who finds out he's an unwitting target of genocide against a secret society known as the Druids—a society he didn't even know he belonged to. O'Brien, one of the last druids, is his mentor. Unfortunately, he is a dud when it comes to magic, but at least he is ex-military. As for picking his girlfriend . . . well, that's a split decision. Alexis and Kendra are opposites in almost every way. Now, if he can just survive the nightwalker—an obsidian-skinned creature with a thirst for blood and a banshee's mind-destroying scream, who wears a cloak black enough to make the grim reaper jealous—then he might have a chance. Ultimately, protecting his loved ones, and himself if possible, becomes his priority.

"The Trinity of Lights" is a practical mathematical approach to spiritualism. It provides a logical understanding of our spiritual universe, guided by practical techniques of interacting with angels. In this book, Hebrew spiritualism is merged with African spiritualism and mathematics to give practical results. This book is five books in one: aThe Trinity of Lights, a aThe Bible Code (Genesis), a aThe Book of Sound, a aThe Book of Light, a and aThe Book of Mind.a

This is the classic life of St Catherine by her spiritual director. He tells of her only what he experienced firsthand, or of what he learned firsthand from her mother, her sisters, her family members and friends. An incredible life, told simply and straightforwardly, without embellishment and without dodging her many miracles, and miraculous conversions. This book puts you squarely in the presence of one of Holy Mother Church's greatest saints.

A comprehensive and fascinating study of Polarity Therapy, Esoteric Anatomy, and Somatic Psychology that reveals the vital role of energy in the healing arts. Esoteric Anatomy offers a spiritual approach to massage, bodywork, and somatic psychology, demystifying an ancient transpersonal model for understanding energy in nature and working with consciousness in the healing arts. It offers a comprehensive health care system based on understanding the body as a field of conscious energy—a system that promotes healing, health building, and self-actualization. Author and spiritual healer Bruce Burger begins by introducing Polarity Therapy in a series of energy-balancing sessions that can be used in conjunction with other forms of therapy and bodywork. This holistic approach can alleviate physical, mental, emotional, and spiritual suffering, including clearing trauma from the cellular memory of the brain. Next, he turns his attention to Esoteric Anatomy in a section of essays that explore the role of energy—or life force—in the healing arts, drawing from the wisdom of ancient India. And finally, Burger builds upon his studies of Polarity Therapy and Esoteric Anatomy to present a unique system of Somatic Psychology that can promote further healing. Thorough, insightful, and complete with illustrations, Esoteric Anatomy is a fascinating course in energy medicine that can guide you toward

This book represents a study of Evelyn Underhill's premier work on mysticism, using Hegel's dialectics and Kant's theory of the sublime as interpretive tools. It especially focuses on two prominent features of Underhill's text: the description of the mystical life as one permeated by an intense love between the mystic and infinite reality, and the detailed delineation of stages of mystical development. Given these two features, the text lends itself to a construction of a valuable discourse predicated on dialecticism, sublimity, and mysticism. The book also articulates a number of insights into the content and nature of the writings of Christian mystics.
