A beautifully imagined story of the last days of Frida Kahlo's life A few days before Frida Kahlo's death in 1954, she wrote in her diary, "I hope the exit is joyful and I hope never to return." Diagnosed with polio at the age of six and plagued by illness and injury throughout her life, Kahlo's chronic pain was a recurrent theme in her extraordinary art. In *Frida's Bed*, Slavenka Drakulic explores the inner life of one of the world's most influential female artists, skillfully weaving Frida's memories into descriptions of her paintings, producing a meditation on the nature of chronic pain and creativity. With an intriguing subject whose unusual life continues to fascinate, this poignant

&lt;Do the Balkans Begin in Vienna? takes up one of the most fraught areas of Europe, the Balkans. Various part of the Austro-Hungarian, Ottoman, and Byzantine empires, this region has always been considered Europe's border between the Orient and the Occident. Aiming to clarify the politics of drawing cultural borders in this region, the book examines the relations between the Habsburg Monarchy and the Balkans as an intermediate space between West and East. It

demonstrates that the dichotomy Orient versus Occident is insufficient to explain the complexity of the region. Therefore, cultural multi-belonging, historical disruption, and recurrence of identities and conflicts are proposed to be -the essence- of the Balkans. &ltBR> &ltI>Do the Balkans Begin in Vienna? depicts the fictional imagination of the Balkans as a -utopian dystopia-. This oxymoron encompasses the utopian projections of the Austrian/ Habsburg writers onto the Balkans as a place of intact nature and archaic communities; the dystopian presentations of the Balkans by local authors as an abnormal no-place (ou-topia) onto which the historical tensions of empires have been projected; and, finally, the depictions of the Balkans in the Western media as an eternal or

recurring dystopia.&ltBR> There is at present no other study that distinguishes these particular geographical reference points. Thus, this book contributes to the research on Europe's historical memory and to scholarship on postcolonial and/or post-imperial identities in European states. The volume is recommended for courses on Austrian, German, Balkan, and European studies, as well as comparative literature, theater, media, Slavic literatures, history, and political science."

Drinking: A Love Story, found herself confronted with a monumental task: redefining her world. She had faced the loss of both her parents, given up a twenty-year relationship with alcohol, and, as she writes, "I was wandering around in a haze of uncertainty, blinking up at the biggest questions: Who am I without parents and without alcohol? How to form attachments, and where to find comfort, in the face of such daunting vulnerability?" An answer materialized in the most unlikely form: that of a dog. Eighteen months to the day after she quit drinking, Knapp stumbled upon an eight-week-old puppy at a local animal shelter, took her home, and named her Lucille. Now two years old, Lucille has become a central force in Knapp's life: "In her," she writes, "I have found

solace, joy, a bridge to the world." Caroline Knapp has been celebrated as much for her fresh insight into emotional and psychological issues as she has been for her gifts as a writer. In *Pack of Two*, she brings the same perception and talent to bear on the rich, complicated terrain of human-animal relationships. In addition to mining her own experience with Lucille, Knapp speaks to a wide variety of dog people--from animal behaviorists and psychologists to other owners whose dogs have deeply affected their lives--about this emotionally complex, sometimes daunting, often profoundly healing alliance. Throughout, she explores the shift in canine roles from working partners to intimate companions and looks, too, at how this new kinship, this wordless bond, becomes a

This book is an introduction to the philosophy of Arthur Schopenhauer, written in a lively, personal style. Hannan emphasizes the peculiar inconsistencies and tensions in Schopenhauer's thought--he was torn between idealism and realism, and between denial and affirmation of the individual will. In addition to

providing a useful summary of Schopenhauer's main ideas, Hannan connects Schopenhauer's thought with ongoing debates in philosophy. According to Hannan, Schopenhauer was struggling half-consciously to break altogether with Kant and transcendental idealism; the anti-Kantian features of Schopenhauer's thought possess the most lasting value. Hannan defends panpsychist metaphysics of will, comparing it with contemporary views according to which causal power is metaphysically basic. Hannan also defends Schopenhauer's ethics of compassion against Kant's ethics of pure reason, and offers friendly amendments to Schopenhauer's theories of art, music, and "salvation." She also illuminates the deep connection between Schopenhauer and the early
