Guns Germs and Steel is surely the most widely read book about agriculture anyone has ever written. Jared Diamond's ideas about human society and human nature continue to be enormously influential. The key question is whether Jared Diamond's work is broadly correct about human history or a distortion of that history.

*Guns Germs and Steel by Jared Diamond Distorts History*

Guns, Germs, and Steel Summary. In Guns, Germs, and Steel, Jared Diamond outlines the theory of geographic determinism, the idea that the differences between societies and societal development arise primarily from geographical causes. The book is framed as a response to a question that Diamond heard from Yali, a charismatic New Guinean politician.
