With the need for sustainability, a focus on developing an economic system that aims at minimizing waste, commonly referred to as the circular economy, is emerging. Circular economy and studies related to it have gained worldwide attention, as it seems to be an effective alternative economic system. Naturally, the circular economy will impact enterprises and will shift how entrepreneurship development and entrepreneurial opportunities are perceived, developed, and resourced. The Handbook of Research on Entrepreneurship Development and Opportunities in Circular Economy is a collection of pioneering research that advances the understanding of entrepreneurship development, identifies the

Entrepreneurship has always been a key factor in economic growth, innovation, and the development of firms and businesses. More recently, new technologies, the waning of the "old economy", globalization, changing cultures and popular attitudes, and new policy stances have further highlighted the importance of entrepreneurship and enterprise. Entrepreneurship is now a dynamic and expanding area of research, teaching, and debate, but there has been no standard reference work which is suitable for both established scholars and new researchers. This book fills that gap. All the major

the multi-faceted nature of entrepreneurship, chapters explore a vast range of subject areas including education, economic policy, gender and the prevalence and nature of informal sector entrepreneurship. In order to understand the process of new venture creation in developing economies, what it means to be engaged in entrepreneurship in a developing world context must be addressed. This handbook does so by exploring the difficulties, risks and rewards associated with being an entrepreneur, and evaluates the impacts of the environment, relationships, performance and policy dynamics on small and entrepreneurial firms in developing economies. The handbook brings together a unique

Ò Ð Roger Stough, George Mason University, US ÔThis volume fills an important gap in the research literature on entrepreneurship. Entrepreneurship is a localized phenomenon and all too many studies disregard this fact. Thus, the regional economic milieu is a critical factor determining not only the volume and type of entrepreneurship but also the effects of entrepreneurship in terms of value-added growth, employment growth, etc. The contributions in this book by a number of leading scientists in the field
