connectivity with infrastructure investments; and (3) eliminating barriers across and within countries to favor the movement of labor, goods and services. Achievements vary widely across countries: while some succeeded in enhancing competitiveness and improving social outcomes, others are experiencing

increasing inequalities and failures to spur growth in disadvantaged areas. The book highlights many examples of how the new economic geography is reshaping development objectives: from initiatives to foster growth via enhanced agglomeration and improved local connectivity to the world economy, to special decentralization
