IATA has revised its 2020 traffic forecast for the Middle East and Africa down sharply and warns that many African airlines are in "serious financial distress".

A History of the Greek Language is a kaleidoscopic collection of ideas on the development of the Greek language through the centuries of its existence.

This handbook deals with the effects of altitude on the body and the special senses, including orientation and disorientation, the effects of changing gravitational forces, and the nature and effects of fatigue. It then describes how to minimize the effects of physical and mental stressors through exercise, diet and nutrition. Medications, substance abuse, pregnancy, heat and cold, and toxic hazards are also dealt with.

Flightpath is the definitive course for pilots and Air Traffic Controllers who need an ICAO4 level of English to work in the industry. Flightpath is the only Aviation English course to offer a thorough grounding in the full range of communication skills needed by aviation professionals to communicate in non-routine situations. With regular focus on ICAO criteria, learners are given full support in reaching industry standards, including case studies, analysis of their own communication skills, exposure to authentic in-flight communication, and communicative tasks. Flightpath is the most accurate preparation course available for any ICAO4 language test, and includes authentic industry training video. Flightpath has been reviewed and endorsed by a panel of leading aviation communication and safety professionals.

The updated, fifth edition of the widely used introductory Spanish textbook designed specifically for health care professionals Nurses, doctors, dentists, and other health care professionals increasingly need to communicate with patients in Spanish. Formerly titled An Introduction to Spanish for Health Care Workers, the fifth edition of this popular textbook is designed for students with little or no formal background in Spanish. It uses text, audio, video, classroom activities, and electronic exercises to teach basic grammar, specialized medical vocabulary, and colloquial terms as well as customs and communication styles. An interactive companion website features video clips that demonstrate practitioner-patient interactions and offers self-correcting exercises, an audio program, and flash cards. The fifth edition is also updated with - New topics, including muscles, pediatrics, heart disease, neurologic exams, and zika - Nearly 300 classroom activities, including exposition activities to develop the presentational mode of communication - Expanded vocabulary lists, sorted by frequency
