### Journal Of Immunology Cat Allergy

In two cohorts of cat-allergic persons, the frequency of sensitization to cat serum albumin was found to lie between 14% and 23%. Sensitization to porcine albumin was found to lie between 3% and 10%. About 1/3 of these persons are likely to experience allergic symptoms in relation to pork consumption. Sensitization to cat serum albumin should be considered a useful marker of possible cross-sensitization not only to porcine serum albumin but also to other mammalian serum albumins.

### Allergic cross-reactions between cat and pig serum albumin ...

American Academy of Allergy, Asthma & Immunology, stated that allergies to cats occur in approximately 15% of the American population yearly. It has also stated, in 2014, that an estimated 14 percent of children between the age of 6 years and 19 years of age are allergic to cats.

### Journal Of Immunology Cat Allergy

If you have an allergy to an animal, it means you are hypersensitive to a substance produced by the animal. For example, in the case of cat allergy, the major cat allergen, known as Fel d 1, is a protein found on cat hair, having been produced by the sweat, salivary and anal glands. In the case of allergy to cat,

### Allergy to Animals

cat allergy. Cat allergen is particularly persistent and can remain in homes long after a cat is no longer there. Pet dander can become airborne as hair is shed by grooming and collects on furniture and other surfaces. Horse allergy is an important problem even in a young urban population. It causes a wide range of

### **Journal of Allergy and Clinical Immunology - Elsevier**

Allergies to cats are one of the most common allergies among individuals. Among the eight known cat allergens, the most prominent allergen is secretoglobulin Fel d 1, and it is produced in the anal glands, salivary glands, and, mainly, in sebaceous glands of cats, and is ubiquitous in the United States, even in households without cats. Allergic symptoms associated with cats include coughing, wheezing, chest tightening, itching, nasal congestion, rash, watering eyes, sneezing, chapped lips, and sim
