"This new curriculum standard for the Level 2 - General Machinist for the Machining and Tooling trades is based upon the on-the-job performance objectives, located in the industry approved training standard. The curriculum is organized into 8 reportable subjects. The Program Summary of Reportable Subjects chart summarizes the training hours for each reportable subject. The curriculum identifies only the learning that takes place off-the-job. The in-school program focuses primarily on the theoretical knowledge and the essential skills required to support the performance objectives of the Apprenticeship Training Standards. Employers/Sponsors are expected to extend the apprentice's knowledge and skills through practical training on the work site."--Document.

Original text, modern Tamil, and English translations of Tirukkural, ancient Tamil didactic verse work, by Tiruvalluvar, Tamil poet.

Financial Management: Theory and Practice celebrates the 23rd Anniversary of its publication. Over these two decades, Indian business and finance have considerably changed owing to deregulation, liberalisation, privatisation, globalisation, and the ascendance of the services sector. The book has kept pace with these changes and captures the central themes and concerns of corporate financial management-making it both contemporary and comprehensive. The book seeks to:

- *Build understanding of the central ideas and theories of modern finance
- *Develop familiarity with the analytical techniques helpful in financial decision making
- *Furnish institutional material relevant for understanding the environment in which financial decisions are taken
- *Discuss the practice of financial management.
