Kung Fu Master, on the ZX Spectrum. Now, if you were a gamer 25-30 years ago, and/or you care about retro gaming, you probably remember Kung Fu Master perfectly, or at least know what I'm talking about. Kung Fu Master. Yes, this one: I have to admit this game was pretty special to me in my teen years. Why is that?

Bad Games I Played a Lot #1: Kung Fu Master (ZX Spectrum)

Bomberman is an arcade-style maze-based video game developed by Hudson Soft. It was first released in 1983 for the MSX, NEC PC-6001/8801, Sharp MZ-700 and FM-7 in Japan, and for the ZX Spectrum in Europe (under the English language title Eric and the Floaters).

Ivanovo in 1991. 48 KB RAM, 16 KB ROM and built in(?) kempston joystick interface. The size of the system unit is 14 × 8 × 2½ inches, the weight is 1.5 kg approx.

List of ZX Spectrum clones - Wikipedia

The ROM can be used in a real ZX Spectrum, if you have the ability to burn a new one, or can easily be used in emulators. However, for the latter, you will need to disable any fast tape loader option since the emulators usually patch the original ROM to trap the save and load routines to implement the fast loader.

Jonathan Cauldwell releases a custom ROM for the ZX ...

Excerpt: The ZX Spectrum (the "Z" is pronounced "Zed" from its original British English branding) is an 8-bit personal home computer released in the United Kingdom in 1982 by Sinclair Research Ltd. Referred to during development as the ZX81 Colour and ZX82, the machine was launched as the ZX Spectrum by Sinclair to highlight the machine's ...

Peter Adams is a self-acknowledged, full-blown geek! His love of computers and software began at a very early age (back in the 80's!) when he learnt to program on a ZX Spectrum personal computer. For over 20 years, Peter has taught thousands of courses and classes, for both the young and old, to get the most out of their software and computers.
