The story of the Falklands War is most commonly told through headline events. The sinking of the Belgrano, the battle of Goose Green, the loss of Royal Navy ships including the Sheffield and Coventry. And rightly so ... these matters were the pivotal moments of what was an unexpected war.

Memories of the Falklands Most days on 18 Doughty Street we send someone out on the streets of Bloomsbury to record some Vox Pops with local people on a political issue of the day. Invariably we get some hilarious responses.

This poignant book is published to coincide with the 20th anniversary of the outbreak of the Falklands conflict in 1982. Contributors include politicians, soldiers and their families, journalists and Falkland Islanders themselves.

This book offers an empirically informed understanding of how identity and agency become wholly embedded within practices of media-remembering. It draws upon data collected from the British military, the BBC and Falkland Islanders during the 30th Anniversary of the Falklands war to uniquely offer multiple perspectives on a single 'remembering' phenomenon. The study offers an analysis of the convergence, interconnectedness and interdependence of media and remembering, specifically the production, interpretation and negotiation of remembering in the media ecology. In so doing it not only examines the role of media in the formation and sustaining of collective memory but also the ways those who remember or are remembered in media texts become implicated in these processes.

Written by the man who masterminded the British victory in the Falklands, this engrossing memoir chronicles events in the spring of 1982 following Argentina's takeover of the South Atlantic islands. Adm. Sandy Woodward, a brilliant military tactician, presents a complete picture of the British side of the battle. From the defeat of the

Argentine air forces to the sinking of the Belgrano and the daring amphibious landing at Carlos Water, his inside story offers a revealing account of the Royal Navy's successes and failures. At times reflective and personal, Woodward imparts his perceptions, fears, and reactions to seemingly disastrous events. He also reveals the steely logic he was famous for as he explains naval strategy and planning. His eyewitness accounts of the sinking of HMS Sheffield and the Battle of Bomb Alley are memorable. Many Britons considered Woodward the cleverest man in the navy. French newspapers called him "Nelson." Margaret Thatcher said he was precisely the right man to fight the world's first computer war. Without question, the admiral's memoir makes a significant addition to the official record. At the same time it provides readers with a vivid portrayal of the world of modern naval warfare, where equipment is of astonishing sophistication but the margins for human courage and error are as wide as in the days of Nelson.

The bestselling, highly-acclaimed and most famous account of the Falklands War, written by the commander of the British Task Force.

Howell Evans was born in 1915 in the Falkland Islands, the fourth member of a family of eight children, and lived there for 31 years. This autobiography tells of Howell Evans' life in the Falklands from his earliest memories to his departure in 1946 - the people he knew, the harsh realities of everyday life, the landscape and the wildlife they relied on. He brings to life the remote farms, the ships, the busy self-reliant atmosphere of Stanley. Mixing jokes, memories and an eye for detail, he captures a lost way of life and a vibrant ecology that still needs protecting. The book aims to offer an important addition to the history of the Falklands and to the understanding of an isolated community.

took the extraordinary decision to invade the Falkland Islands. Throughout the Spring of 1982, the conflict in the Falklands dominated world headlines, as British forces conducted a bravely fought and skilfully directed military campaign to recapture the Islands. The book provides a chronological account of the campaign and the key factors that enabled British forces to succeed. 25 years later, the Falklands War remains fresh in many people's memories as one of the most gripping historical events in recent times.

"As I toured the wards of that remarkable ship during my flying visit, I found all of my seriously wounded soldiers who had been helicoptered off the battlefield, some of whom I thought I would never see again, and saw for myself the inspirational care of the Naval medical and nursing staff that had saved lives and on which recovery was depending. It was hardly a mile offshore, but it felt a very long way from Mount Tumbledown." Lieutenant General Sir John Kiszely KCB, MC, Company Commander in 2nd Battalion Scots Guards 1982

"These are the personal stories of the injured servicemen and the Naval Nurses and Doctors who fought the all-important battle to 'bring them back alive'." Brian Hanrahan BBC War Correspondent during The Falklands War 1982

"The story of dedication and courage on The Hospital Ship Uganda. Author Nicci Pugh honours all those who were treated and served on board Her Majesty's Hospital Ship Uganda during the Falklands War in 1982." Michael Nicholson CBE, ITN War Correspondent during the Falklands War 1982

"Nicci Pugh is to be congratulated on weaving together the threads of this hidden side of the Falklands conflict. A success story emerges of inter-service cooperation, which shows what can be achieved when there is no precedent to follow. White Ship - Red Crosses explains why The Hospital Ship Uganda became such a reassuring presence to those fighting in the South Atlantic in 1982." Captain Grahame A. regarding much of the early days after the bombing of the Sir Galahad, but nothing detracts from the comfort and security I felt as I was cared for and nursed on board The Hospital Ship at that time. Much has been written regarding the battles and the soldier's point of view during the Falklands War, but the perspective of the medical teams has often been overlooked and ignored. This is a story that needs to be told and listened to, not just because it is a great book and a very good read but because of its powerful message. *White Ship - Red Crosses* is a triumph for all injured servicemen but let's not forget the tributes deserved by those unrelentingly hard-working nurses and medical teams, without whom my survival would not have been possible. Author Nicci Pugh, who worked as an Operating Theatre Sister in the midst of the casualties as they arrived on board The Hospital Ship Uganda in 1982 has captured the whole essence of treating and caring for the casualties on a mass scale in a war zone." Simon Weston CBE Former patient on board Her Majesty's Hospital Ship Uganda, during The Falklands War 1982 "Not before time, the story of the Naval nursing staff on board The Hospital Ship Uganda. This is a story that needs to be told." Simon Weston CBE

Panoramic, transnational history of the Falklands War and its imperial dimensions, which explores how a minor squabble mushroomed into war.

‘ Age shall not weary them, nor the years condemn. At the going down of the sun and in the morning, we will remember them. ’ These words, spoken at war memorials across the United Kingdom and around the world on 11 November every year, encapsulate how we commemorate our war dead. *Lest We Forget* looks at how we remember not only those who died in battle, but also those whose memory is important to us in other ways. This wide-ranging review considers such topics as Holocaust Memorial Day, the Hillsborough Disaster, memories of the Spanish Civil War, the genocide in Rwanda, Diana, Princess of Wales and the role of the Cenotaph and the
