This is an aftermarket replacement cylinder head for Mercruiser, Volvo Penta, OMC, and GM marine 3.0L engines used between the years 1991-newer. This cylinder head has the smaller HO exhaust ports unlike the older pre-1991 cylinder heads. You can use this head to replace the older heads, however, an adapter kit will be required. Specifications:

### *Amazon.com: 3.0L GM High Output Marine Engine Cylinder ...*

Mercruiser is the inboard marine engine division of Mercury Marine. The typical Mercruiser engine is an inline 4-cylinder, V6 or V8 engine produced by General Motors and based on existing automotive engine designs. However, during the 1980s, Mercruiser designed and built an engine that was not a pre-existing automotive engine.
