PRINCIPLES OF MICROECONOMICS, Sixth Edition, became a best seller after its introduction and continues to be the most popular and widely used text in the economics classroom. Instructors found it the perfect complement to their teaching. A text by a superb writer and economist that stressed the most important concepts without overwhelming students with an excess of detail was a formula that was quickly imitated, but has yet to be matched. The sixth edition features a strong revision of content in all twenty-two chapters. Dozens of new applications emphasize the real-world relevance of economics for today's students through interesting news articles, realistic case studies, and engaging problems. The premier ancillary package is the most extensive in the industry, using a team of instructors/preparers that have been with the project since the first edition. The text material is again fully integrated into Aplia, the best-selling online homework solution. I have tried to put myself in the position of someone seeing economics for the first time. My goal is to emphasize the material that students should and do find interesting about the study of the economy.--N. Gregory Mankiw. The first Canadian edition of ECON Macro is an innovative, hybrid-learning package that was created by the continuous feedback of our “ student-tested, faculty-approved ” process, unique to our 4ltr Press series. ECON Macro delivers comprehensive content in a visually appealing, succinct print component paired with a high-value online offering - MindTap - that includes an integrated eReader and a set of interactive digital tools that appeal to a wide range of learning styles and needs, all at a value-based price. This winning combination is proven to increase engagement and lead to better outcomes. The hallmark of this solution is the student-friendly approach taken by award-winning instructor and author Will McEachern. McEachern uses familiar examples and illustrations drawn from students ' daily lives to vividly demonstrate that when students show up for class the first day, they each come with at least 17 years of first-hand experience in making economic choices and dealing with economic institutions and events, connecting these life experiences to key macroeconomic concepts.
