an automatic transmission system, the transmission fluid dipstick should be relatively easy to find. Open the hood of the vehicle, and consult your owner ' s manual to determine where the transmission fluid dipstick should be. Again, if this is a manual transmission, the drain plug may be underneath the car.

The two 6-speed manual transmissions available in R56 MINIs are manufactured by Getrag. The G253 and G253 are both utilized, and vary slightly in design, noticeable in the transmission shaft end casings. When servicing your fluid, check the label on the transmission that identifies the fluid your transmission requires.

## ~~Mini Cooper 2001-2013: How to Change Transmission Fluid in ...~~

Maintaining clean transmission fluid in your MINI is a safe way to avoid costly transmission repairs down the road. On average, the fluid should be swapped out every 45,000 miles or so. This ensures the car ' s components are well lubed with clean transmission fluid, and free of dirt and debris that sometimes collects over time.
