Vladimir Nabokov, bilingual writer of dazzling masterpieces, is a phenomenon that both resists and requires contextualization. This book challenges the myth of Nabokov as a sole genius who worked in isolation from his surroundings, as it seeks to anchor his work firmly within the historical, cultural, intellectual and political contexts of the turbulent twentieth century. Vladimir Nabokov in Context maps the ever-changing sites, people, cultures and ideologies of his itinerant life which shaped the production and reception of his work. Concise and lively essays by leading scholars reveal a complex relationship of mutual influence between Nabokov's work and his environment. Appealing to a wide community of literary scholars this timely companion to Nabokov's writing offers new insights and approaches to one of the most important, and yet most elusive writers of modern literature.

'I am inclined to think that we want new forms . . . as well as thoughts', confessed Elizabeth Barrett to Robert Browning in 1845. The Oxford Handbook of Victorian Poetry provides a closely-read appreciation of the vibrancy and variety of Victorian poetic forms, and attends to poems as both shaped and shaping forces. The volume is divided into four main sections. The first section on 'Form' looks at a few central innovations and engagements—'Rhythm', 'Beat', 'Address', 'Rhyme', 'Diction', 'Syntax', and 'Story'. The second section, 'Literary Landscapes', examines the traditions and writers (from classical times to the present day) that influence and take their bearings from Victorian poets. The third section provides 'Readings' of twenty-three poets by concentrating on particular poems or collections of poems, offering focused, nuanced engagements with the pleasures and challenges offered by particular styles of thinking and writing. The final section, 'The Place of Poetry', conceives and explores 'place' in a range of ways in order to situate Victorian poetry within broader contexts and discussions: the places in which poems were encountered; the poetic representation and embodiment of various sites and spaces; the location of the 'Victorian' alongside other territories and nationalities; and debates about the place - and displacement - of poetry in Victorian society. This Handbook is designed to be not only an essential resource for those interested in Victorian poetry and poetics, but also a landmark publication—provocative, seminal volume that will offer a lasting contribution to future studies in the area.

We've all seen that lone shopping cart sitting on the edge of a parking lot. Who goes and gets it and brings it home? Why are the mouths of catsup bottles so narrow? What will the new silence sound like? Droll, slightly dystopian, and delightfully wobbly, this collection of comic prose poems and short fiction by audio drama producer and playwright, Brian Price, is a fine introduction to his unique world of magic realism, stage monologue, and childhood memories. Perfect for public performance, private soliloquies, or just reading with your mouth full during lunch.

Monologues are an essential part of every actor's toolkit. Actors need them for drama school entry, training, showcases and when auditioning for roles in the industry. Edited by Dee Cannon, author of the bestselling In-Depth Acting, this book showcases selected monologues from some of the finest modern plays by some of today's leading contemporary playwrights. The monologues contain a diverse range of quirky and memorable characters that cross cultural and historical boundaries, and comes in a brand new format, with a notes page next to each speech, acting as an actor's workbook as well as a monologue resource.
