This is Chapter 2 of the OpenOffice.org 3 Impress Guide, produced by the ODFAuthors group. Designing a presentation. In addition to careful planning of the content (as discussed in Chapter 1), you need to plan the appearance of the presentation. It is best to do this after you have developed an outline, because the outline will determine some of the requirements for the slides' appearance.

Open Office.org 1.1 Impress QuickStart Guide

OpenOffice Impress, a part of the OpenOffice office suite package and created by Sun Microsystems, is a presentation program similar to Microsoft PowerPoint. In addition to being able to create PDF files from presentations, it is also able to export presentations to SWF files, allowing it to be played on any computer with a Flash player installed. It is able to view, edit and save files in many file formats, including the.ppt format, which is used by Microsoft PowerPoint. Impress is distributed
