~~Specs - NN-SD786S Countertop - Panasonic~~

The NN-SD987SA is a Panasonic Genius Prestige model that is mostly similar to the NN-SD975S, but lacks the Cyclonic Wave technology. Looks like Panasonic may have superseded this model with the SD975S. I just bought an SD987SA and it includes interior led illumination. Panasonic indicates this in their specs for this model. However, there is nothing in the specs for the SD945 or SD975 models ...

~~Questions and Answers: Panasonic NN-SD987SA - Best Buy~~

A: Answer The NN-SD945S is a Panasonic Genius microwave, but not a Panasonic Genius "Prestige". This means it has the regular stainless steel enclosure, regular glass window, standard main control knob; and when comparing it to the SD975S a major functional difference is that it lacks the new Cyclonic Wave technology. The NN-SD975S is a Panasonic Genius Prestige version which means it has the ...

A comprehensive history of American women writers explores the contributions of more than 250 female authors--both famous and little-known--to every field of literary endeavor and reflects on their role in the evolution of our American literary heritage.

Noted logician discusses both theoretical underpinnings and practical applications, exploring set theory, model theory, recursion theory and constructivism, proof theory, logic's relation to computer science, and other subjects. 1981 edition, reissued by Dover in 1993 with a new Postscript by the author.

Written from a psychological perspective while integrating cross-disciplinary viewpoints, this fully updated Second Edition takes a parent-centered approach to exploring topics such as the reasons behind parental behavior, the effect parents and children have on one another, and social policy's ability to help families. Including the latest statistics on family functioning and with coverage of contemporary issues, George Holden's Parenting conveys the process of parenting in all its complexities.

In this innovative work Jean Hillier develops a new theory for students and researchers of spatial planning and governance which is grounded primarily in the work of Gilles Deleuze. The theory recognizes the complex interrelation between place qualities and the multiple space-time relational dynamics of spatial governance. Using empirical examples from England and Australia, Hillier identifies the power of networks and trajectories through which various actors territorialize space and explores the social and political responsibilities of spatial managers and decision-makers. She considers what spatial planning and urban management practices could look like if they were to be developed along Deleuzean lines, and suggests alternative framings for spatial practice: broad trajectories or 'visions' of the longer-term future and shorter-term, location-specific detailed plans and projects with collaboratively determined tangible goals.

A stunning collection of aerial photography from high above the British Isles, offering a unique insight into the evolution of photography, mapping and the nation. This beautiful volume of striking colour images from over 150 years, with accompanying descriptive text, offers a history of aerial photography that has always been about more than just aesthetic value. Aerial photography has been practised for as long as man has been airborne. Techniques have changed since photographers leant out of the first hot air balloons, as have the subjects - from photographing 19th century rural Britain, to detailing the Games of the Thirtieth Olympiad in 2012. Each chapter details a region of Britain, highlighting key social, cultural and technological changes over the years. Grainy images and cracked screens have given way to high resolution detail. Over 100 featured subjects include: * the natural beauty of the British landscape from Snowdon to Easdale to the Needles * contemporary views from The Shard in London to Cardiff Arms Park to Belfast's Wish * historic monuments from Buckingham Palace to Stonehenge to Caerphilly Castle

The leading expert in the field brings the power of his experience and that of the world-renowned consulting firm Booz-Allen & Hamilton to reveal how buying smart can mean the difference between success and failure.

When a little brown wren of an Englishwoman bursts into Jamie Heyworth's private Hell and asks for help he mistakes her for the black crow of death. Why not? He fled to Rome and sits in despair with nothing left to sell and no reason to get up in the morning. Behind him lie disgrace, shame, and secrets he is desperate to keep. Nora Haley comes to Rome at the

bidding of her dying brother who has an unexpected legacy. Never in her sunniest dreams did Nora expect Robert to leave her a treasure, a tiny black-eyed niece with curly hair and warm hugs. Nora will do anything to keep her, even hire a shabby, drunken major as an interpreter. Jamie can't let Nora know the secrets he has hidden from everyone, even his closest friends. Nora can't trust any man who drinks. She had enough of that in her marriage. Either one, however, will dare anything for the little imp that keeps them together, even enter a sham marriage to protect her. And don't miss Dangerous Works, where Jamie first appeared.
