This flexible program, edited by Core Knowledge founder E.D. Hirsch, Jr. follows the Core Knowledge Sequence to teach key history and geography topics at each consecutive level. Teachers can purchase the textbooks in their entirety to teach the Core Knowledge curriculum. Select units can be purchased as individual books to meet specific curriculum needs. With this program, students can build a unified, solid base of academic knowledge - the key to overall literacy and future success. Beautifully illustrated pages and a friendly narrative style without distractions, keeps students motivated and focused as they learn essential content and skills.

Introduction to Geography: People, Places, & Environment, Sixth Edition introduces the major tools, techniques, and methodological approaches of the discipline through new applied visual features that engage students and reinforce real-world connections. The authors emphasize the integration of various aspects of geographic processes and systems by discussing what happens in one set of geographic processes and how that affects others. For example, what happens in economic systems affects environmental conditions; what happens to climate affects political

Longman Geography for ICSE

Classes 6-8, 4E, is a comprehensive study of the Earth and its physical as well as regional aspects. The series explores different lands, cultures, people and encourages students to appreciate the bond that exists between the humans and their environment. The series has been revised on the basis of feedback received from practicing teachers and reviewers across the country. The content has been presented in an easy-to-understand and comprehensive manner in order to move beyond mere narration of facts and figures. The aim is to make the study of this subject interesting and interactive.
