Are You A Physicist? Doing Quantum Physics the right way is so much more fun for scholars and putting a smile on our faces while calculating and researching is all we need, right?! What more do we ask from a physicist with a passion for formulas and a wild desire for physical theory development? The only thing that we need in order to keep improving and building our scientific achievements is a unique approach to keeping an organized mind about it. That is why you should gift yourself with a unique, fun, yet smart present that will impact your success and productivity with physics. Here we go... Start your next theory off with a plan, a perfect calculus plan, that is. Ditch the old, boring notepad, and go with this stylish new graph paper notebook that has been specifically designed for physicists like you. Our 5x5 graph paper, also known as 'engineering' paper has five squares per inch, so each square measures .20" x .20" It is frequently used for math or science purposes for teens and adults. The larger quad rule sized squared paper may be better for younger children. Graph paper has many uses. Here are some possible ones: Design projects, mapping for board/video/roleplay games, designing floorplans, tiling or yard landscaping, playing pen and pencil games, planning embroidery, cross stitch or knitting. Some occupational therapists use squared paper for writing practice. Artists may use grids to copy pictures. Programmers, engineers and scientists may prefer graph paper for notes that involve formulas.
