The PPK/S's controls are a bit different from what many of us are used to. There's no slide-lock lever, and the magazine release button is just underneath the slide. Unlike many European pistols with magazine release levers in the heel of the gun, the magazine release on the PPK/S is a small checkered button on the left side of the frame ...

The PPK/S was developed following the enactment of the Gun Control Act of 1968 (GCA68) in the United States, the pistol's largest market. One of the provisions of GCA68 banned the importation of pistols and revolvers not meeting certain requirements of length, weight, and other "sporting" features into the United States.

One of the most popular WALTHER pistols in the Umarex range has been improved: The Walther PPK/S with a metal slide now has a new piercing mechanism for the CO₂ cartridge – it's invisible when the gun is seen in profile. The required Allen key is part of the grip plate and is therefore always at hand. The heavy slide generates a noticeable blowback effect.
