A Summer in a Cañon is a remarkable story of a late 19th-century California life from the point of view of a group of teens and children on the summertime adventure of their lives. The book is following lives of Polly Oliver and her friends and cousins a year or so before she takes off for San Francisco to earn a living and save her mother from destitution. It is a fun chronicle of a summer vacation, during which Polly writes some very clever and humorous letters home, to an invalid cousin in Santa Barbara, where she describes things such as a tarantula fight and donkey riding. Polly Oliver's Problem continues to follow Polly after she comes back from holiday and starts working on her life dream, which is becoming a kindergarten teacher. But her mother, who runs a boarding house, gets ill and Polly must take responsibility. When the doctor suggests a change of climate, Polly moves the family to San

Francisco where she keeps trying to fulfill the dream with her mother's blessing. Kate Douglas Wiggin (1856-1923) was an American educator and author of children's stories, most notably the classic children's novel *Rebecca of Sunnybrook Farm*. She started the first free kindergarten in San Francisco in 1878 (the Silver Street Free Kindergarten). With her sister during the 1880s, she also established a training school for kindergarten teachers. Kate Wiggin devoted her adult life to the welfare of children in an era when children were commonly thought of as cheap labor.

Polly loves words. And she loves writing stories. So when a magic book appears on her doorstep that can make everything she writes happen in real life, Polly is certain all of her dreams are about to come true. But she soon learns that what you write and what you mean are not always the same thing! Funny and touching, this new chapter book series will entertain readers and inspire budding writers.

FINALIST FOR THE 2017 NATIONAL BOOK AWARD FOR FICTION Named a Best Book of 2017 by NPR, Entertainment Weekly, the Los Angeles Times, BuzzFeed, Bustle, and Electric Literature “There was a time I would have called Lisa Ko’s novel beautifully written, ambitious, and moving, and all of that is true, but it’s more than that now: if you want to understand a forgotten and essential part of the world we live in, *The Leavers* is required reading.” –Ann Patchett, author of *Commonwealth* Lisa Ko’s powerful debut, *The Leavers*, is the winner of the 2016 PEN/Bellwether Prize for Fiction, awarded by Barbara Kingsolver for a novel that addresses issues of social justice. One morning, Deming Guo’s mother, Polly, an undocumented Chinese immigrant, goes to her job at a nail salon—and never comes home. No one can find any trace of her. With his mother gone, eleven-year-old Deming is left mystified and bereft. Eventually adopted by a pair of well-meaning white professors, Deming is moved from the Bronx to a small town upstate and renamed Daniel Wilkinson. But far from all he’s ever known, Daniel struggles to reconcile his adoptive parents’ desire that he assimilate with his memories of his mother and the community he left behind. Told from the perspective of both Daniel—as he grows into a directionless young man—and Polly, Ko’s novel gives us one of fiction’s most singular mothers. Loving and selfish, determined and frightened, Polly is forced to make one heartwrenching choice after another. Set in New York and China, *The Leavers* is a vivid examination of borders and belonging. It’s a moving story of how a boy comes into his own when everything he loves is taken away, and how a mother learns to live with the mistakes of the past.

"A casebook that takes students through the main issues of consumer law: deceptive practices, product quality, and consumer credit. It covers the Federal Interstate Land Sales Full Disclosure Act (regulating sale of vacation home land -- not mentioned in any other book on this topic), and includes "Quotes for the Attorney's Arsenal" (statements from famous cases that eloquently encapsulate specific points)"--

Pauline Oliver, in Polly Oliver's Problem, chafes against spending the rest of her life helping her mother run a boarding house--then must take charge when the Widow Oliver suffers poor health and must move to a healthier climate.

Counseling Addicted Families, Second Edition, is an up-to-date treatment manual that fosters lasting change for families dealing with addiction and addictive disorders. Focused around the clinically esteemed Sequential Family Addictions Model, the book guides counselors through the principles of how to "progressively sequence" a client family during their change process, and explores how family counseling theories and interventions can be applied in treatment settings. This second edition aligns with the DSM-5 Substance Use Disorder criteria and terminology and includes new sections on neuroscience and cutting-edge drug detection assessment methods. Both experienced and entry-level counselors will appreciate how the Model improves their clinical skills and knowledge to address the idiosyncratic needs of each individual family system and create healthy systemic change.
