The Four Types of Problems Engineers Must Solve

Engineers, too, go through their days with an engineering mindset, at home and at work. They see problems. They brainstorm solutions. They innovate. They create. They test their designs, and when things don't work or could be better, they try again. (See the engineering design process.) Engineers know that by brainstorming, problem solving, and testing, they can solve problems, create exciting new things, or improve upon things that already exist.
