Des Townson was a yacht designer and boatbuilder who possessed an analytical mind, an innate feel for sailing boats and a wonderful eye for their visual balance. During a five decade long design career he produced some of the most eye-catching, easily handled and well performing maritime craft to ever grace New Zealand waters. The fact he was self-taught and worked almost his entire career alone only intensifies the achievements of this remarkable man. His own recollections and those of his family, close friends and associates combined with photos, boat plans and press reports, ensure a detailed record of his impact on the New Zealand sailing scene is preserved. Des Townson's legacy continues to this day through the thousands of yachts still bearing his name.

First published in 1993, The Virgin Suicides announced the arrival of a major new American novelist. In a quiet suburb of Detroit, the five Lisbon sisters—beautiful, eccentric, and obsessively watched by the neighborhood boys—commit suicide one by one over the course of a single year. As the boys observe them from afar, transfixed, they piece together the mystery of the family ' s fatal melancholy, in this hypnotic and unforgettable novel of adolescent love, disquiet, and death. Jeffrey Eugenides evokes the emotions of youth with haunting sensitivity and dark humor and creates a coming-of-age story unlike any of our time. Adapted into a critically acclaimed film by Sofia Coppola, The Virgin Suicides is a modern classic, a lyrical and timeless tale of sex and suicide that transforms and mythologizes suburban middle-American life.

This book is for all people who are forced to use UNIX. It is a humorous book--pure entertainment--that maintains that UNIX is a computer virus with a user interface. It features letters from the thousands posted on the Internet's "UNIX-Haters" mailing list. It is not a computer handbook, tutorial, or reference. It is a self-help book that will let readers know they are not alone.
