Drawing from both pop culture and science, Charles Yu is a brilliant observer of contemporary society, and in Sorry Please Thank You he fills his stories with equal parts laugh-out-loud humor and piercing insight into the human condition. He has already garnered comparisons to such masters as Kurt Vonnegut and Douglas Adams, and in this new collection we have resounding proof that he has arrived (via a wormhole in space-time) as a major new voice in American fiction.

A very nice selection of science fiction stories. I really liked Hero Absorbs Major Damage (a D&D short story) and Note To Self (meeting himself and himself in multiple dimensions). Oh, there was even a story about Yeoman Red Shirt. Sorry Please Thank You (the final short story) had a real effect on me, I guess for more personal reasons.

Thank You he fills his stories with equal parts humor and insight into the human condition. A big-box store employee is confronted by a zombie during the graveyard shift, a problem that pales in comparison to his inability to ask a coworker out on a date. A fighter leads his band of virtual warriors, thieves, and wizards across a deadly computer-generated landscape, but does he have what it takes to be a hero? A company outsources grief for profit, its slogan: "Don't feel like having a bad day? Let someone else have it for you"--From publisher description.

Presents a collection of stories featuring a retail employee who is confronted by a zombie, a computer warrior who leads his fighter band across a virtual landscape, and a company that outsources grief.

From the National Book Award–winning author of Interior Chinatown, comes a hilarious, heartbreaking, and utterly original collection of short stories. A big-box store employee is confronted by a zombie during the graveyard shift, a problem that pales in comparison to his inability to ask a coworker out on a date . . . A fighter leads his band of virtual warriors, thieves, and wizards across a deadly computer-generated landscape, but does he have what it takes to be a hero? . . . major new voice in American fiction.

With only TAMMY - a slightly tearful computer with self-esteem issues - a software boss called Phil - Microsoft Middle Manager 3.0 - and an imaginary dog called Ed for company, fixing time machines is a lonely business and Charles Yu is stuck in a rut. He's spent the better part of a decade navel-gazing, spying on 39 different versions of himself in alternate universes (and discovered that 35 of them are total jerks). And he's kind of fallen in love with TAMMY, which is bad because she doesn't have a module for that. With all that's on his mind, perhaps it's no surprise that when he meets his future self, he shoots him in the stomach. And that's a beginner's mistake for a time machine repairman. Now he's stuck in a time loop, going in circles forever. All he has, wrapped in brown paper, is the book his future self was trying to press into his hands. It's called How to Live Safely in a Science Fictional Universe. And he's the author. And somewhere inside it is the information that could save him.

Willis Wu doesn't perceive himself as a protagonist even in his own life: He's merely Generic Asian man. Sometimes he gets to be Background Oriental Making a Weird Face or even Disgraced Son, but he is always relegated to a prop. Yet every day he leaves his tiny room in a Chinatown SRO and enters the Golden Palace restaurant, where Black and White, a procedural cop show, is in perpetual production. He's a bit player here, too, but he dreams of being Kung Fu Guy--the most respected old that anyone who looks like him can attain. At least that's what he has been told, time and time again. Except by one person, his mother. Who says to him: Be more. Playful but heartfelt, a send-up of Hollywood tropes and Asian stereotypes, Interior Chinatown is Charles Yu's most moving, daring, and masterly novel yet.
