When Firekeeper discovers that the Beast 's greatest fear has become reality, she turns to King Tedric of Hawk Haven for aid. The old king is willing to help the wolf-woman — for a price. Firekeeper 's former adversary, Melina Shield, has risen to great prominence in the neighboring land of New Kelvin. Melina 's unexpected power threatens the reputation of King Tedric 's heir apparent, Sapphire, and, through Sapphire, dreams for the new realm of Bright Haven. King Tedric 's price for helping the Beasts is that Firekeeper and Blind Seer escort Elise Archer and her handpicked diplomatic team into New Kelvin, then assist them with their investigations. The last time Firekeeper and her friends visited New Kelvin, they ended up fleeing as hunted fugitives, but this may be the least difficulty upon their return. Firekeeper is plagued with visions featuring the comet that streaks through the skies. These feed her growing sense that to continue interacting with humans will eventually lead to the transformation of the wild Beasts into nothing more than human tools. Doubt is a new enemy to Firekeeper — one that threatens even her bond with her beloved companion, the wolf, Blind Seer.

A tale of humane wolves, beastly men, and a brilliant heroine who must find her way in a dangerous world Raised by intelligent, language-using wolves, brought back to the human society at the court of Hawk Haven, young Firekeeper had to learn to cope with human society and its complexities . . . and discovered that, for someone raised in a wolf pack, the politics of a royal court were neither complex nor wholly unfamiliar. But the happy ending of Through Wolf's Eyes has proved to have consequences. Hawk Haven and Bright Bay are unifying, but the power balance of the neighboring lands is threatened by this prospect. New intrigues abound. The rulers of Bright Bay, it transpires, have been hoarding a collection of forbidden magical artifacts . . . which Queen Gustin took with her when she abdicated, intending to use them to restore her power. Melina Shield is still scheming to obtain them, and she's older, smarter, and more devious than the Queen. And the even-more-devious civil service of neighboring New Kelvin would like to get their hands on that magic as well . . . Which will make life very hard for Firekeeper. Because the powers of the world have decided who'll be required to obtain those much-contended-for magical articles. It'll be her. Transformative Journey Blind Seer has run at Firekeeper 's side since the wolf-woman first crossed the Iron Mountains into human-held lands. Now it 's her turn to run alongside the blue-eyed wolf as he sets out in search of someone who can teach him how to use his magical gift—on his own unique terms . The pair 's search will take them to the far side of the world in the company of allies who include a young woman scarred by war, a falcon who believes himself a traitor, and an old friend... or possibly enemy. Together they will fight battles from before they were born, climb mountains, cross badlands, eventually unveiling a threat that will reshape not only Blind Seer, but his belief in what he most desires.

Raised in the wild by intelligent, language-using wolves, in her teens Firekeeper was abducted back into the lands of men, where her upbringing as a wolf helped her survive the deadly intrigues of human beings. One of the first things she learned in Hawk Haven was that magic was a thing to be feared and despised. Long ago, all the human kingdoms were ruled by powerful sorcerers. Then a plague came and the sorcerers died. Nobody misses them. Much was lost—but still, nobody misses them. Yet as Firekeeper has travelled and grown wiser in the ways of human beings, she's learned that the true story was more complex. In coming to the country of the Liglim, she, Derian Carter, and Blind Seer discovered that magic is still working in the world, and that it isn't always the evil they'd been warned against. But it also turned out that the old plague specifically targeted magic users. And when Firekeeper and her friends learned to open the gates between worlds, the plague came back with them. Firekeeper, Blind Seer, and Derian Carter survived the plague: not unchanged, but still themselves. Now Firekeeper is determined to learn the nature of the plague--and if she can, to end it forever. What happens next will be the culmination of the remarkable fantasy epic that began with *Through Wolf's Eyes*. Jane Lindskold's *Through Wolf's Eyes*; *Wolf's Head*, *Wolf's Heart*; and *The Dragon of Despair* told the story of Firekeeper, the young girl raised by sentient, language-using wolves who is then plunged back into human society, where her training as a pack animal stands her in good stead amidst political and dynastic intrigues. Now, in *Wolf Captured*, the focus returns to Firekeeper and her wolf companion Blind Seer, as they find themselves kidnapped and dragged overseas, and forced to maneuver for their lives in an unfamiliar and dangerous new society. The Liglimoshti worship animals and portents, which rule their lives. And the Liglimoshti are aware, as the other countries are not, that Royal animals like Truth and Blind Seer exist, are intelligent, and can speak to each other. They've kidnapped Firekeeper and Blind Seer because they've never before heard of a human who could talk to animals. They want to see what Firekeeper can do. They want her to teach them how to do it. Firekeeper's more than willing to talk to the animals there. But she fears that Liglim's Royal animals are being held in polite and unobtrusive bondage. She wants to find out the truth -- and, if necessary, free them... At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Remembering her exotic Las Vegas childhood, the flamboyant mother who abandoned her, and the foster parents who agreed to change their identities in order to adopt her, Mira Fenn returns to the home of her past and discovers her own latent powers. By the author of *Through Wolf's Eyes*. Reprint.

Orphans Besieged After a violent attack makes all too clear that the Lands Born from Smoke and Sacrifice are willing to invade, the indigenous magical traditions of Earth turn against the Thirteen Orphans. Pearl Bright, the Tiger, realizes the fight must be taken into the Lands—but she can't do this alone, and her allies are increasingly untrustworthy. Shaken from her close encounter with death by violence, Brenda Morris is uncertain about her place among the Orphans, an uncertainty not helped by being forced to accept that that Flying Claw, once known as “ Foster, ” the man she thought she loved, is, by training and tradition, a skilled killer. Yet, despite numerous complexities, if the Orphans hope to meet their enemies from a position of strength, they must open the Nine Gates: a feat that will begin with the revelation of dark secrets and extend to demanding the cooperation not only of barely cooperating living allies, but also of the resentful dead. Bonus material includes the newly expanded essay “ Disappointment Evaded. ” “ The system of magic is complex, the direction the series is taking is mysterious, and the correspondence to Chinese myth and mah-jong are thought-provoking. ” Booklist on Nine Gates “ Contrasting themes of love and duty, loyalty and ambition, family and otherness lend a sense of universality to this urban fantasy. ” Library Journal on Nine Gates
