One of the greatest spiritual teachers of the twentieth century shares the inspirational insights of timeless philosophies in The Man Who Loved Seagulls: Essential Life Lessons from the World's Greatest Wisdom Traditions. In The Man Who Loved Seagulls, Osho discusses essential stories and parables from the world's great wisdom traditions of Zen, Taoism, Christianity, and Judaism. Osho--himself a master storyteller--interprets the stories in this collection and applies them to the concerns of modern day life. The valuable lessons they impart are both timely and universal. The stories encourage meditation as they are meant to be told and studied again and again, in order to discover new layers of meaning with each reading. Ideas and topics include: * The futility of chasing happiness * The journey from fear to freedom * The Zen approach to death and dying * The extraordinary

intelligence of innocence * And much more Osho challenges readers to examine and break free of the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the Sunday Times of London as one of the "1000 Makers of the 20th Century" and by Sunday Mid-Day (India) as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to expand, reaching seekers of all ages in virtually every country of the world.

One of the most important life events is falling in love, yet we never learn about it in school. Societies and religions force us into models and thought-forms that are often in opposition to an organic model of love, which is instead institutionalized by marriage, religious affiliations, and nationalism. This results in love that is, for most people, a painful challenge in one form or another throughout life. In these modern days, where the focus shifts more and more to realizing one's individual potential, Osho helps us to direct our search for love by widening our view - showing us that love has many manifestations and is not limited to the 'other'. One manifestation of love is meditation, a life-changing experience that allows the flowering of real love within oneself and toward others. The Osho Life Essentials series focuses on the most important questions in the life of the individual. Each volume contains timeless yet contemporary investigations and discussions into questions vital to our personal search for meaning and purpose. The Osho Life Essentials series focuses on questions specific to our inner life and quality of existence; for example, is it possible to have an authentic spirituality without a belief in God? What is meditation and how does it work? What can I do as an individual to make the world a better place?

"Includes the rediscovered part four"--Cover.

Shares the author's insights into the religious, political, social, and economic forces that compel people into fanaticism or opposing belief systems, discussing psychological aspects of the human need to belong and believe in a cause.

One of the greatest spiritual teachers of the twentieth century invites you on a journey through what makes human beings afraid—and how confronting fears strengthens us. In *Fear: Understanding and Accepting the Insecurities of Life*, Osho takes the reader step by step over the range of what makes human beings afraid—from the reflexive "fight or flight" response to physical danger to the rational and irrational fears of the mind and its psychology. Only by bringing the light of understanding into fear's dark corners, he says, airing out closets and opening windows, and looking under the bed to see if a monster is really living there, can we begin to venture outside the boundaries of our comfort zone and learn to live with, and even enjoy, the fundamental insecurity of being alive. Fear features a series of meditation experiments designed to help readers experience a new relationship with fear and to begin to see fears not as stumbling blocks, but as stepping stones to greater self-awareness and trust. Osho challenges readers to examine and break free of the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the Sunday Times of London as one of the "1000 Makers of the 20th Century" and by Sunday Mid-Day (India) as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to expand, reaching seekers of all ages in virtually every country of the world.

A provocative look at the pursuit of material success and influential power from one of the twentieth century's greatest spiritual teachers. "I want you to be rich in every possible way—material, psychological, spiritual. I want you to live the richest life that has ever been lived on the earth."—Osho *Fame, Fortune, and Ambition: What is the Real Meaning of Success?* examines the symptoms and psychology of preoccupations with money and celebrity. Where does greed come from? Do values like competitiveness and ambition have a place in bringing innovation and positive change? Why do celebrities and the wealthy seem to have so much influence in the world? Is it true that money can't buy happiness? These questions are tackled with a perspective that is thought-provoking, surprising—and particularly relevant to our troubled economic times. Osho challenges readers to examine and break free of the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the Sunday Times of London as one of the "1000 Makers of the 20th Century" and by Sunday Mid-Day (India) as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to expand, reaching seekers of all ages in virtually every country of the world.

In *Trust: Living Spontaneously and Embracing Life*, one of the greatest spiritual teachers of the twentieth century discusses the importance of believing in our own ideals and truths—and not give in to the powerful societal influences that govern the world. We live in times where trust in old institutions and their relevance to our lives have evaporated. Religions, ideologies, political systems, morals, family, marriages—none of these traditional institutions are working anymore. Osho's insight is that the institutions of the past have used the false substitutes of "belief" and "faith" as control mechanisms of society. Whereas authentic trust comes from within, belief systems are imposed from the outside by religious and social institutions. Osho encourages readers to rediscover and reclaim the innate trust that is born with each individual. No more demands to trust in an "other." No more faith

and belief, with their demands that we drop all questioning and doubt, but rather a willingness to honor our questions and doubts so fully that they will lead us to our unique, authentic, and individual truth. Osho challenges readers to examine and break free of the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the Sunday Times of London as one of the "1000 Makers of the 20th Century" and by Sunday Mid-Day (India) as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to expand, reaching seekers of all ages in virtually every country of the world.

One of the greatest spiritual teachers of the twentieth century encourages you to embrace your childlike curiosity and reconnect it to your adult sensibilities. *Innocence, Knowledge, and Wonder: What Happened to the Sense of Wonder I Felt as a Child?* looks to each person's last state of innocence—childhood—to recover the ability to truly be curious. Osho discusses why it is important to look to our "inner child" and how it can help you understand the person you have become. Osho challenges readers to examine and break free of the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the Sunday Times of London as one of the "1000 Makers of the 20th Century" and by Sunday Mid-Day (India) as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to expand, reaching seekers of all ages in virtually every country of the world.

One of the greatest spiritual teachers of the twentieth century shares his philosophy on self-discovery, free will, and the search for a place and purpose in life. "I myself am a question. I know not who I am. What to do? Where to go?"—*Osho Destiny, Freedom, and the Soul: What Is the Meaning of Life?* explores deeply human questions, such as: Is there really such a thing as "soul," and if so, what is it? Where does the concept of karma fit in? Does my life have a special meaning or purpose? Osho challenges readers to examine and break free of the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the Sunday Times of London as one of the "1000 Makers of the 20th Century" and by Sunday Mid-Day (India) as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to expand, reaching seekers of all ages in virtually every country of the world.

Challenges popular wisdom to argue that corruption is an inherent tendency, revealing the sources of corruption in everyday life while outlining a vision for a society that recognizes individuals, in a set that includes a DVD of the author addressing questions from the book. Original. 25,000 first printing.
