The resources of both governments and traditional philanthropy are either barely growing or in decline, yet the problems of poverty, ill-health, and environmental degradation balloon daily. It is therefore increasingly clear that we urgently need new models for financing and promoting social and environmental objectives. Fortunately, a significant revolution appears to be underway on the frontiers of philanthropy and social investing, tapping not only philanthropy, but also private investment capital, and providing at least a partial response to this dilemma. This book examines the new actors and new tools that form the heart of this revolution, and shows how they are reshaping the way we go about supporting solutions to social and environmental problems throughout the world. With contributions from leading experts in the field, *New Frontiers of Philanthropy* provides a comprehensive analysis of the many new institutions that have surfaced on this new frontier of philanthropy and social investment; the new tools and instruments these institutions are bringing to bear; the challenges that these actors and tools still encounter; and the steps that are needed to maximize their impact. The result is a powerful and accessible guide to developments that are already bringing significant new resources into efforts to solve the world's problems of poverty, ill-health, and environmental degradation; unleashing new energies and new sources of ingenuity for social and environmental problem-solving; and generating new hope in an otherwise dismal scenario of lagging resources and resolve. Investors, philanthropists, social entrepreneurs, nonprofit leaders, business executives, government officials, and students the world over will find much to build on in these pages.

Let Every Nation Know is the first book of its kind—a historical biography in Kennedy's own words. Combining a remarkable audio CD of Kennedy's most famous speeches, debates and press conferences with the insights of two of America's preeminent historians, the result is a unique look at the world-changing words and presidency of John F. Kennedy. Robert Dallek, author of the #1 bestselling biography *An Unfinished Life*, and Terry Golway, author of *Washington's General*, bring to life the soaring oratory, marvelous wit and the intense drama of Kennedy's words and the events they evoke. "I had forgotten just how powerful these speeches were but the CD brings them to life once more and Dallek and Golway have done a masterful job of putting them into context."—Bob Schieffer, CBS News

Collected in one illuminating volume, the writings and speeches of John F. Kennedy reveal the man and president who inspired a generation. Here are the words that propelled a nation and moved the world, offering an important portrayal of the 35th president's entire career. Photographs throughout.

"When the Spirit of Adventure Calls to our Heart, we must go." This quote, written in memory of Mark Auricht who died on Mt Everest in 2001, reminds us of our enduring connection with nature and the magnetic attraction of adventure. It not only enlivens our soul, but also has the power to draw from within us, a strength, courage, resilience and passion that for some lies dormant until awakened. Beyond

the story of triumph and tragedy in the Himalayan landscape, this book is also about the journey that takes place within us, when we explore the limits of our self-imposed boundaries to find the hidden treasures of our heart. As the world enters a time of unprecedented change, we must evolve new ways of thinking, living, learning and leading that will help us to navigate the challenging terrain of this new frontier. May this heart-felt tribute to the enduring spirit of Mark Auricht, serve as an inspiration and a compass for future leaders, adventurous souls and explorers of human potential.

A comprehensive work on the European space sector.

Set in the teeming frontier wilderness of northeast Florida, the Fountain of Youth chronicles the continuing saga of the Ribault family. Investing each generation with its own identity as historical events both factual and metaphysical unfold, one idea survives: to discover the mythic fountain of youth. More than Montezuma's treasure or El Dorado, this secluded hideaway had become a holy grail for the Ribaults. Deep in the dense forest of the Marshlandic Kingdom, the quest for Ponce de Leon's miracle springs was conducted as generations explored and mapped the region before Napoleon Ribault finally makes a mythic discovery.

Expert Guide to Deploying, Using, and Managing DataPower SOA Appliances IBM® WebSphere® DataPower® appliances can simplify SOA deployment, strengthen SOA security, enhance SOA performance, and dramatically improve SOA return on investment. In this book, a team of IBM's leading experts show how to make the most of DataPower SOA appliances in any IT environment. The authors present IBM DataPower information and insights that are available nowhere else. Writing for working architects, administrators, and security specialists, they draw extensively on their deep experience helping IBM customers use DataPower technologies to solve challenging system integration problems. IBM WebSphere DataPower SOA Appliance Handbook begins by introducing the rationale for SOA appliances and explaining how DataPower appliances work from network, security, and Enterprise Service Bus perspectives. Next, the authors walk through DataPower installation and configuration; then they present deep detail on DataPower's role and use as a network device. Using many real-world examples, the authors systematically introduce the services available on DataPower devices, especially the "big three": XML Firewall, Web Service Proxy, and Multi-Protocol Gateway. They also present thorough and practical guidance on day-to-day DataPower management, including, monitoring, configuration build and deploy techniques. Coverage includes

- Configuring DataPower's network interfaces for common scenarios
- Implementing DataPower deployment patterns for security gateway, ESB, and Web service management applications
- Proxying Web applications with DataPower
- Systematically addressing the security vulnerabilities associated with Web services and XML
- Integrating security with WebSphere Application Server
- Mastering DataPower XSLT custom programming
- Troubleshooting using both built-in and external tools
