Craig Dilouie is one of the best horror writers around at the moment. This book proves it. 'Tooth and Nail' is a blood-splattered tale of a group of soldiers fighting to stay alive in New York during the outbreak of a highly-contagious virus that turns those infected with it into rabid maniacs.

Craig DiLouie's 'Tooth & Nail' is a zombie story filled with practically non-stop action and very realistic detail. It is obvious that DiLouie did his research before or while writing this novel. 'Tooth & Nail' is very military focused and while I have a little bit of knowledge, I do not know a lot of the details of the military world.

~~'By this time next year, another dozen zombie novels will have been published, but none will probably be as good and ultimately satisfying as Craig DiLouie's new novel TOOTH AND NAIL. It's the Black Hawk Down of the zombie genre. It's that good.'~~ ~~Kyle Mizokami's review for WarisBoring.com, full review here~~

Craig DiLouie offers his own take on zombies in his military-focused novel Tooth And Nail published by Schmidt Haus Books. Tooth And Nail asks the reader, what if American soldiers were removed from their tour of duty in Iraq only to be reassigned to fight a battle on their native soil against their fellow countrymen? This is a timely entry since just earlier this month President Obama declared, 'Operation Iraqi Freedom is over'

~~Book Review: 'TOOTH AND NAIL' by Craig DiLouie~~

Tooth And Nail. DiLouie Craig. This is the way the world ends. Not with a bang, not with a whimper, but a slaughter.As a new plague related to the rabies virus infects millions, America recalls its military

forces from around the world to safeguard hospitals and other vital buildings. Many of the victims become rabid and violent but are easily controlled-that is, until so many are infected that they begin to run amok, spreading slaughter and disease.

Okay, so Tooth and Nail came out in 2010, so this is hardly an up to date review but I only recently bought it and read it. I enjoyed it ...

~~Tooth and Nail by Craig DiLouie~~

I know some Zombiephile purists might argue that Craig DiLouie's novel, Tooth And Nail, is not a zombie book, but if you think 28 Days Later can be counted as a zombie movie, then it's all good.Obviously, I am talking about the living infected in a story about an Army unit trying to navigate through New York City.
