This book is an exploration of interaction between humans, computers and automated machines and why they frequently go awry, sometimes with disastrous consequences. The book lays out a clear foundation for evaluating interactions between users and machines, showing the reader how to describe, analyze and quickly identify potential design problems. The insights and methodologies provided allow the reader to understand the root human-interaction problems in modern systems, improve the usability of new user interfaces, and, the author hopes, have a say in the design of the highly automated systems of the future.

Living with a tigress is no joke! This is the true story of a Forest Conservator who risked his life and went beyond the call of duty for Khairi, a tigress he considered as his very own. The book offers the perfect balance of a biography and a scientific study. Khairi is so brilliantly brought to life in this book that you almost expect to hear her padding up behind your chair, purring loudly.

Features camping options, campground lists, suggested sights, and easy to follow maps.

Many people can use the iPad well enough, but they aren't having the amazing experience that they should be. They sell themselves short. They can't find their stuff. They scroll when they could tap. They put up with a cacophony of noisy notifications. They miss important email messages. They watch video on the iPad when they could stream it to an Apple TV. They turn on the wrong settings for the wrong reasons. They need help... even if they don't realize that they do. With 226 detail-packed pages, *Take Control of Your iPad* is on an unstoppable quest to make your iPad experience delightful.
