Independent checkpointing allows maximum process autonomy but suffers from potential domino effects. Coordinated checkpointing eliminates the domino effect by sacrificing a certain degree of process autonomy. In this paper, we propose the technique of lazy checkpoint coordination which preserves process autonomy while employing communication-induced checkpoint coordination for bounding rollback propagation. The introduction of the

notion of laziness allows a flexible trade-off between the cost for checkpoint coordination and the average rollback distance. Worst-case overhead analysis provides a means for estimating the extra checkpoint overhead. Communication trace-driven simulation for several parallel programs is used to evaluate the benefits of the proposed scheme for real applications. Wang, Yi-Min and Fuchs, W. Kent Unspecified Center N00014-91-J-1283; NAG1-613...

The beautiful sounds of Christmas music delight us each year anew, as we celebrate the Season with time-honored Christmas carols and songs. The eight early-elementary to elementary arrangements in this compilation will both please and motivate younger piano students, who always love to play melodies they are familiar with. Each solo features a single note melody, and is complete in itself. For a fuller, richer sound, the duet part for the teacher may be added.

Master builder and LEGO luminary Yoshihito Isogawa helps you build more than 100 creative, non-electric models with LEGO Technic parts. Part of a two-volume set. This book in the LEGO Technic Non-Electric Models series features 106 motor-free mechanisms for you to build and operate. Each project includes full-color photographs from multiple angles and illustrated Technic parts to help you follow along. The models range from practical tools for lifting, gripping, shooting, and measuring to working gadgets that demonstrate principles of mechanical engineering. The Technic models in Clever Contraptions require no electric elements or sensors. Instead, you'll use cranks, winches, doors, and rotators to operate devices including wind turbines, spinning tops, grabbing tools, and a spirograph. The clever kinetic ideas at play will inspire you to create your own mechanical marvels. This Technic guide is part of a series, and the brainchild of master builder Yoshihito Isogawa. Each book in the series is filled with vibrant photos of Isogawa's unique non-electric models, which will fire up the imaginations of LEGO builders of all ages. Imagine. Create. Invent. Now, what will you build?

"From Karaoke to the Platters" is the inspirational tale of how Paul B Allen III went from singing in karaoke establishments, to become the lead singer of one of the greatest vocal groups of all time, The Platters (Only You; Smoke Gets In Your Eyes; The Great Pretender, etc.). Paul was not allowed entry into his elementary school chorus because of his "tin ear," so the trip from "reject" to lead vocalist was an incredible journey. Paul shares that journey, as well as all the things he did, step by step, that led him to performing at venues like the world-famous Kennedy Center, backed by the National Symphony Orchestra, and his singing for the rich and famous all around the world, including performing for the Royal Family in London, Prince Albert in Monaco, and being invited to the White House to perform for the President of the United States of America. This book is made up of two parts that are linked together by Paul's real-life experiences in the music industry, as an internationally published songwriter and as the lead vocalist of The Platters. Part One tells step by step how he did it (and how you can too), and Part Two tells what happened once he "arrived." It is a truly fascinating account that can only be told by someone who has lived the life. And as you read, you'll feel like you're living it right alongside of him.

Christmas Word Search Puzzle Activity Book For Kids: Beautiful Christmas Word Search For Kids: Christmas Word Search Puzzle Designs for Kids from SK Publishing, this kids activity book has wonderful Christmas Word Search Puzzle designs to provide hours of fun, calm, relaxation and stress relief through creative expression.
